MAINLAND COLD

Canadian Press
Vancouver, Jan. 13.—Residents of the lower British Columbia mainland shivered in the coldest weather of the last ten years to-day and many motorists, taken by surprise, found their automobile radiators frozen. Vancouver had a "down-east" appearance as heavy snow which fell during the week remained on the road and 14.5 degrees of frost, official reading, cooled still water with ice.

New Peace Set-up
Is Seen For Europe

IMPORTANT MOVE
The cabinet's action was described as one of its most important in several months, coming as it did on the day following the plebiscite in the Saar, a vote which, it was believed, was overwhelmingly in favor of Germany.

By GEORGE HAMILTON
London, Jan. 14.—Sir John Simon, British Foreign Secretary, reported to his colleagues in the cabinet to-day the result of his conversations in Geneva with European statesmen.

Momentous decisions lie ahead. A new peace structure for Europe is in the air.

The view is widely held in Britain that the time is ripe to make

ANNOUNCEMENTS

Business on the Upturn—A definite indication that conditions are improving and that business is on the upturn is shown by the fact that the Canada Tax Company sold over \$4 million more tax in western Canada in 1934 than in 1933.

LADDER STORY

New York, Jan. 14.—A Bronx carpenter has informed authorities in the New York American that yesterday in a midnight raid, at the request of a gangster, he had been compelled to build the ladder used in the kidnapping of the Lindbergh baby.

The carpenter is Abe Sammarco, who made for Dr. John P. Condon (JaJa) the box in which the \$50,000 ransom money was carried in the kidnap. The American said the carpenter told the police he had four or five days ago received his release until after Hauptmann's arrest. Then, he added, he recognized the prisoner from pictures as the man who had come to him a few days before the kidnapping and had a ladder made.

Saar Gives Big Majority For Germany

(Continued from Page 1)

Describing the vote as "the most peaceful-Democratic election ever held outside of Germany's frontiers," Dr. Paul von Hindenburg, the Saar's first post-war governor, said: "The Saar people have given a clear-cut answer to the question of whether they should remain in the German Reich or be allowed to maintain their ballots as 'tools of Hitler.'

"The impression was created," he declared, "that the Saar already is under Nazi rule. Many voters came to me during the day and asked me what they should do." The anti-Nazi's want the League Council to take these things into consideration when they decide what to do about the vote.

The votes of the shareholders raised in particular about throughout the territory during the pre-electoral campaign were extremely quiet yesterday. "There were no disturbances, no shouting, no noise," he said, adding, "whereas at the time of the polling places, there were few disqualifications."

The counting of the ballots will take all night, and the result is expected to be flashed to the world some time early to-morrow.

PUBLIC KEPT OUT

Officials decided the seals of the boxes would be broken at 5 p.m., in the presence of representatives of the French and German governments and the Saar Nazis and anti-Nazis. The 100,000 voters will be counted after the seals are broken and the final result will be known.

The auditorium to which the ballot boxes were taken was dominated until a few days ago by huge emblems and a portrait of Adolf Hitler.

CROSS BORDER

As the followers of Hitler claimed their victory, it was revealed the Socialists, Communists and anti-Hitler Catholic leaders had taken refuge across the French border in France, "a minister's" journey from the city.

NEW CHEVROLET ON SHOW HERE

Handsome Models Being
Displayed at The Motor
House on Yates Street

New 1935 Master and Standard models, closely approaching beauty and style and featuring high-powered performance with economy, are announced to-day by Chevrolet. The 1935 Standard Chevrolet are on display at the Motor House Limited, at the corner of Yates and Vancouver Streets.

Master body models include five-passenger coach with trunk, five-passenger 4-door coach with trunk, five-passenger coupe, five-passenger coupe with trunk, five-passenger sedan with rumble seat, five-passenger sedan, five-passenger sedan with trunk, five-passenger 4-door sedan with trunk, and an open convertible with rumble seat.

In addition to the coach, coupe and sedan, which are new, the 1935 Standard line includes a five-passenger sedan, a 4-door sedan, and a sedan delivery for light commercial use.

Virtually the same performance is incorporated in the 1935 Standard as in the Master. The latter, however, starts distinctly from previous Chevrolets in having a new series of body lines and trim. To indicate incorporating many improvements over the 1933 Master, one of the same size and design in both models, while in the details the chief difference is the presence in the Master of Chevrolet's acclaimed front-engine suspension now entering its second year, improved in construction and operation.

While the Master Model retains only the characteristic outlines of the radiator, and the trade spots on hub cap and radiator emblem, to indicate that it is of Chevrolet design. The V-radiator is narrower and more sloping, the unit fenders are highly contoured, while the windshield has a very slanted top line, which helps to support the car to flow smoothly into the body which is beautifully streamlined. By utilizing the newly-developed all-steel roof construction, Chevrolet has attained a new sleekness. Its rounded roof sweeping from windshield to the rear roof in a continuous curve, an effect produced by choice of roof panel and moldings and by the continuity of body color over the entire top.

Every detail of the Master is new, starting with the front bumper and including the radiator, grille, the ornaments that enclose the radiator cap (the hood ornament), the hooded hood, bumpers, running boards, front and rear mud flaps, front tire mountings (resembling in some models), tail lamp, and rear bumper. The wheelbase of the new Master is increased to 115 inches, and greater body space has been achieved by moving the engine forward. The appearance of great length has been gained by lowering the floor level one inch.

Side doors are designed to offer a marked increase in performance. To attain greater acceleration, higher speed and improved hill climbing, Chevrolet has adopted for the Standard line the larger "Blue Flame" engine used in the Master model, with 60 more horsepower, and the gain in engine power has been offset with the necessary increase in breaking ability, the cable-controlled breaking system has been improved in operation and increased capacity.

Important to smooth engine performance is the innovation of electroplated plates in combination with engraved plates which provide greater bearing area and automatically clean the plates for the proper breaking-in of the engine.

Knee-action, in the Master only, has been modified to increase its efficiency and to improve ride control.

In Master bodies the windows have generously rounded corners to harmonize with the streamlined. Doors are rounded below the glass and are replaced with rounded corners at the top. The belt mounting is carried from the hood into the car, broadening on the doors, then tapering toward the rear. The windshield is shaped sharply (81° degrees) and V-shaped, giving improved vision and reducing wind resistance and noise. Its contours are designed to match the exterior and rounded inside to match the interior trim. Windshield wipers are mounted below the glass, lying along the lower edge of the windshield when not in use; their motor is concealed under the instrument board, at the center. Fisher air-draft ventilation is continued on all models.

Motor oil that is too heavy will cut mileage one to two miles a gallon.

Difference of Opinion

So many people think that our furs are high in price—just because we are exclusive furriers—that is wrong of them to take that attitude, as a matter of fact we are only furriers, and being so, we devote all our time to the making of fur coats, so we are specialists in the fur trade. You will find, if you compare our values, that you cannot duplicate them elsewhere. We refund money if our grade of fur coats can be bought anywhere else for less money.

For over 45 years we have been the leading furriers in the city and now during the big January Fur Sale we are selling our fur coats very cheap—every day we have specials which sell very quickly, so call and see the fur coat you want. Tomorrow's special in a lovely Platinum Muskrat Coat, sagger style, regular price was \$125.00—reduced to... \$85.00

EX-INFANTA WED TO-DAY

Brilliant Scene at Marriage
of Ex-King Alfonso's
Daughter

Associated Press
Rome, Jan. 14.—Queen Alessandra Toscana, the former Miss Louise of New York, and Infanta Beatrice of Spain, daughter of the former King Alfonso, were married to-day in Rome's magnificent old Church of Jesus.

They were surrounded by the actions of Europe's proudest royal families during the ceremony. Hundreds of persons jammed the piazza outside to catch a glimpse of the bride but she entered the church by a rear door.

The wedding was twice changed into a royal demonstration. First as Alfonso entered the church and walked down the aisle and then again as he left the church. Royalists were sent to such frantic efforts that the Italian police had to calm them.

The wedding was performed by Cardinal Pedro Segura, called cardinal primate of Spain. First among the guests were King Victor Emmanuel III of Italy, Queen Elena and the prince of the House of Savoy.

Former King Alfonso of Spain headed the processions of the royal family. Who gathered to see their young relative wed. Other royal houses represented were those of Bavaria, Orleans, de Braganza, Greece, and the French Bourbon branch, with a sprinkling of Hispano.

The bride was a simple, almost severe white satin gown with a long train. The white train was trimmed in white ermine.

One of the most precious gifts from Alfonso was a diamond, collar and pendant of black pearls which once belonged to Queen Maria Theresa of Austria-Hungary and later to Queen Maria Cristina of Spain. Another diamond, collar and bracelet set in emeralds, were given the bride by Queen Elena, Queen of the Toscana. She, too, was dressed in a jeweled spray.

Mrs. Charlie Goodwin was the guest artist and her two beautifully-sung solos, "Song of Schubert," brought the afternoon to a close. Tea was served.

WAS SHE FEED AT 2 A.M.?

The exactness of her waking hours leads one to imagine that for many months she was fed at 2 a.m. That is one of the reasons this department believes firmly in regular daytime feedings and feedings at night only when the child wakes for them.

WAKES TO WANT TO PLAY

Mrs. G. W. writes: "My baby is nearly two years old, and is fat, healthy and fed properly. No matter what time I put her to bed in the evening she is awake at 2 a.m."

"For a whole week I did not give her an afternoon nap, but it did no good. When she wakes up in the night she wants to get dressed and play. I bathe her before I put her to bed. Ordinarily she sleeps three hours in the afternoon."

TORONTO LEAFS' PLAYER TO WED

Winnipeg, Jan. 14.—Larry Reeder, twenty-five with a \$20,000 price tag on himself, has climbed on the auction block—in the interest of pirates' gold. For Larry has determined to marry with \$20,000 the stimulus being that she will finance his expedition in search of treasure which recently sank with the Spanish Armada.

W.J. Handcraft Classes—The handcrafts of the Victoria Women's Institute are now in full swing, and will be resumed to-morrow afternoon at 2:30 o'clock at the headquarters, 625 Fort Street. Basket weaving, glove making, carding, spinning and weaving are all being taught by expert instructors, and anyone interested will be cordially welcomed. Further information may be obtained from the president, Mrs. J. L. White, G 0884.

WAS SHE FEED AT 2 A.M.?

The exactness of her waking hours leads one to imagine that for many months she was fed at 2 a.m. That is one of the reasons this department believes firmly in regular daytime feedings and feedings at night only when the child wakes for them.

Tell "Mothers of Bronx" What He Achieved in Lindbergh Case

Associated Press

New York, Jan. 14.—A letter to the "Mothers of Bronx" appeared to-day over the signature of Dr. John P. Condon, Lindbergh ransom intermediary in the Bronx Home News.

His letter, dated Bronx, N.Y., January 13, was printed under a column headed "A Message From Dr. Condon." It follows:

"To the men, women and children of the Bronx:

"Your moral support, faith and absolute confidence in me, in the strength of my birth, I now transmit to the snow-covered hills of Canada or the evergreen hills of Florida; whether I was negotiating in the interests of the millions or communicating with the underworld in the cities or states of iniquity.

"Without any reservation from any one, whatever his or her views, I determined to tell the 'Mothers of Bronx' what I have done, the course of panderers, which seemed to grasp sections of our great United States in its vice-like grip.

"Tell the 'Mothers of Bronx' that they may leave their homes, their homes, their children, their families, their household duties and that my efforts for the return of the little golden-haired Lindbergh baby were directed for their protection and the safety of every child in the world."

"Truly yours,
JOHN P. CONDON."

One of the features of the affair will be an interlude when Alan Keen, butler in the Parkers' home of Mrs. Davis, will take the floor and sing. His mate and co-workers in the orchestra will play a dance number.

Keen studied music in his youth.

CANADA OPENS YEAR STRONGLY

Economic Index For First Week of 1935 Is Highest in Three Years

Ottawa, Jan. 14.—Statistically speaking, Canada started the new year in a strong economic position. In its weekly economic review the Dominion Bureau of Statistics said that the economic index stood at 104.5 for the first week of 1935, a higher point than in any week in either of the two preceding years. Each of the six-component factors in the index, except carloadings, recorded a gain over the last week of 1934.

The index of wholesale prices moved up from 71.8 to 71.9. The weekly index of 507 communities was estimated higher than in any week since the end of last September.

The advance in high grade head prices continued in the first week of January.

Common stock prices were strong in the week ended January 8. The index of 110 stocks moved up from 92.7 to 93.4.

Shortage were heavy in the wool-goods trade, the seasonally adjusted index being 104.5, compared with 94.5, a gain of nearly 14 per cent.

The economic index for the week ended January 8, based on the latest available information regarding six factors, was 104.5, compared with 94.5 at the beginning of 1934, a gain of 10.5 per cent.

CANADA BUYS MORE COTTON

Ottawa Trade Agreements Have Had Salutary Effect on Lancashire Market

Canadian Press Cable
London, Jan. 14.—Canada took considerably more cotton piece goods from Lancashire in 1934 than in any year since 1931, it was shown in the report of the Dominions and home trade section of the Manchester Chamber of Commerce.

The past year was a good year for the Lancashire cotton manufacturers. Exports in 1934 were almost two and a half times as large as in 1933, and the report stated the tariff pressure was removed in the Ottawa Trade agreements for the result.

South Africa especially was a better buyer. In the first six months of last year South Africa bought 85 per cent of her cotton piece-goods from Britain, and only 8 per cent from Japan. The position of regard in the South African market was approximately 47 per cent compared with Britain's 27 per cent.

GRANT TAKES TENNIS TITLE

Atlanta Midnet Turn Back Berkley Bell in Miami Championship

Miami, Fla., Jan. 14.—Bryan M. "Bugsy" Grant, Atlanta, pounded out a straight set victory over Berkley Bell here yesterday to win the third annual Miami Biscayne tennis tournament, 6-4, 6-2, 6-2.

Grant, rated national ten, thus conquers within two days two players ranged higher than he by the United States Lawn Tennis Association. Grant is rated national seventh, while Miami's Bell, 20, is eighth. Atlanian George Friend, in the semi-final, is America's number two.

A year ago, on the same court, Grant was runner-up to George Lott Jr., Chicago, now turned professional, for the tournament victory, after the pint-sized Georgian had upset the second and third number one player, Frank X. Shields.

Bell and J. Gilbert Hall, South Orange, N.J., teamed to trounce Grant and his co-holder of the Southern double championship, Malon Courts, Atlanta, 6-3, 6-1.

On the other side of the bracket, Wood and Dr. Eugene McCullagh, Tuxedo, N.Y., defeated Marcel Rainville, Montreal, and Carroll Turner, Miami, 6-4, 6-3.

W. C. Woodward Out to Break Mandamus Blocking His Nomination

W. C. Woodward of Vancouver, through his counsel, J. E. Nicholson, opened before the B.C. Court of Appeal here to-day his right to maintain his nomination as a director of the Bank of Canada.

Mr. Nicholson appeared before the court on a special motion asking an abridgment of time to permit of the appeal being heard. Immediately against the mandamus issued by Mr. D. A. McDonald of the Supreme Court last Saturday.

This motion was denied, Mr. Woodward's counsel will be permitted to nominate for the national bank's directorate.

The move to exclude Mr. Woodward from the directorate was made by Alexander Thomas Nixon of Vancouver.

This is a matter of urgency as Mr. Woodward is the only nominee from British Columbia for the directorate of the Bank of Canada.

Mr. McDonald said: "The election for director is set for January 20 and unless immediate action is taken British Columbia will probably lose her opportunity to have a representative on the directorate of the Bank of Canada."

The Justice said the order of the court must be obeyed.

One team, Vancouver reps, stood between Victoria and another McKechnie Cup championship to-day, thanks to "Buzz" Brown's smart field goal which sent Varsity down to a 4 to 3 defeat in the opening fixture of the new three-game series at the Athletic Park on Saturday.

decide where Olympics are to be held next year between Berlin and Madrid. Berlin is likely won.

In these days, Adolf Hitler had not yet come to power, and no racial problems were expected to arise. But with Hitler's advent, this angle became acute, and Germany faced successive times that there would be no racial problems against Jews competing in the games that it was sure the contests would be held in Berlin.

But this year finally has come and there now appear every prospect that the Olympics of 1936 will see some great exhibitions. Party nations have signified their intention to participate.

Great preparations are being made to have a stadium which will permit thousands of spectators to view the games. In the outskirts of Berlin a special village is to arise where male athletes and trainers will be quartered in a great student dwelling situated near the main stadium.

Like everything else in West Germany, sports are organized under a local sports leader and he has been busy encouraging various sailing clubs in Berlin, Hamburg, Bremen and other towns to go into active training with their craft this fall.

Perhaps nothing shows the remarkable growth of the German sports better than the fact that they already have drawn up meeting plans for the main stadium and even fixed prices for the seats. Sale of some of them is under way now.

There will be three classes of seats according to location and there also will be a certain number of tickets

for classes of ticket will entitle the holder not only to see every contest held in the stadium, but also to attend the opening and closing ceremonies and the festival play.

The price will be: For first-class, 900-1000; for second-class, 600-700; for third-class, 400-500.

In addition to these comprehensive season tickets there also will be a season ticket for one particular kind of sport, such as track, swimming, boating, and so forth. These will vary in price from 50 to 150, according to the cost of 1935-36.

Costs of admission for one day will vary in price from 50 to 25.

The Olympic committees evidently expects a vast outpouring of German spectators from all over the world as it has announced there will be a limited number of tickets.

And that request will be filled in the order in which the money is sent in.

The present promotion and relegation system is blamed by Canadian Park Rangers for the acute financial difficulties of the amateur and other clubs in English football. The Rangers recently circulated all clubs that they are willing to part with any or all of their team. Michael O'Brien, the former Irish international halfback, who is now manager of the Rangers, has offered such a proposal. It would not have arisen if a club from each section of the division were promoted at the end of each season. He said if only interest could be maintained throughout the season in the league and more than one club had a chance of going up, things would be better for everyone concerned with third division football.

Now last season, when Rangers finished runners-up, their crowds dropped as soon as it became apparent that they would not gain promotion. Had O'Brien's offer been carried out, there would have been another chance of going up into the second division, the "second" ground would have been packed right to the final match, says O'Brien.

The promotion and relegation system has long been a bone of contention. Only last June, at the annual meeting of the English Football League this question was raised. For instance, Mr. J. R. Harell, Derby County, proposed that the number of clubs promoted and relegated from the first division should be increased to four, but his motion was rejected by twenty-two votes to twenty. A motion for an elevation from the 2nd. A. & R. Harell, Northants, Tiverton, appealed to the first division clubs with great trepidation to risk the position of two more of their members in order to help forty in the northern and southern sections of the three divisions. These have strengthen and we will be the best possible basis for an elevation.

Mr. Harell was right to be afraid. The V.F.L. three weeks through on a short run, but Peden took the ball from Boroborough and returned to the Varsity ground.
